ISIE 2023

Aalto University Helsinki, Finland June 19-21, 2023

CALL FOR TUTORIAL PROPOSALS

The organizing committee of the **IEEE-ISIE 2023** to be held in **Helsinki, Finland from June 19-21, 2023**, invites proposals for tutorials on technical areas of interest for Industrial Electronics Society (IES). The tutorials offered by field experts are to cover cutting edge technical topics that are of utmost use for academia, practicing engineers, and researchers, and are expected to have direct relevance for the needs of the industry. We encourage tutorials supported by practical implementations, wherever possible.

The proposers are sought to be among leading experts in the selected field of research and to provide an engaging, interactive platform for active participation from the audience.

Suitable tutorial topics range from emerging research areas to more established cutting-edge techniques of practical and industrial relevance. While **IEEE-ISIE 2023** organizing committee would particularly encourage tutorial topics related to the IES tracks and conference themes, tutorials in emerging topics also of relevance for Industrial Electronics are also welcomed. For more details about the conference, please visit our website at https://2023.ieee-isie.org/.

The deadline for tutorial proposals is **March 15, 2023**. For any questions, please contact •
tutorial.chairs.isie2023@ieee-ies.org

ISIE Tutorial Proposal Form
